

Registration Tips and Tricks

Team Captains: Team Captains should register first and choose to "Create a Team." Please share your team name with your team members (they will need to know it to join your team).

What's in a Team Name: Please indicate which charity your team is supporting by including the charity's name in your team name. The charity name should go before your team name. For example, RHA- Healthy Hikers or CAC- Lungsters.

Team Members: Please choose "Join an Existing Team" and select your team name during the registration process.

Location, Location, Location: Please note that all members of a team must be walking at the same Hike location. If you have a group walking in multiple locations (i.e. Chicago and Palatine) you will need to create two teams with two team captains at the two separate locations.

Register a Friend, Family Member or Team Member: You can register multiple hikers in a single registration process. After completing your registration, you will have the option to complete additional registrations. Please have the required information handy for each hiker that you are registering. It is good idea to collect their complete contact information: mailing address, phone number, first & last name, etc. Please make every attempt use a new email address for each hiker. This prevents multiple emails and event information going to a single hiker.

Username & Passwords: If you participated in an RHAMC event in 2008 or 2009 you can sign up using your existing username and password. If you do not have username and password from 2008 or 2009, please create a new username and password.
